25 Years of Absolute Organizing Solutions with **Vernestine Laughinghouse, CPO**

- **Over the last 25 years, you've worked with corporations, small businesses, non-profits, and individuals. What's the "perfect-sized" job for you, and why?**

Absolute Organizing Solutions enjoys providing services to individuals and businesses. We provide hands-on and virtual services which includes professional organizing, downsizing, move management and records management services to individuals.

Businesses with staff of 1-100 are the perfect size for us to work with providing move management services. We have provided downsizing, move management and records management services to organizations with more than 100 employees. The perfect size depends more on the type of services we are providing versus the number of employees.

Fun Fact:

I did not choose my major or college when I went to college. My bestie and college roommate chose our major and the college we attended. I had not decided on what I wanted to do when she asked me to be her roommate. I told her that she had to make the decision on our major and what college we would attend.

So, I really went to college to be her roommate for one semester. I decided to continue after one semester and yes, I actually graduated. She chose Computer Science for our major and North Carolina A&T State University for the college. Crazy, but no regrets!!

- **One of the services you offer is Records Management. Why would you recommend organizers consider this niche?**

Records management service is perfect for professional organizers. Records management requires project management skills and being detail oriented. Professional organizers possess both. I chose records management as a service because of my background in IT and database management.

- **You're certified with the Women's Business Enterprise National Council (WBENC). What does the certification signal to potential clients and corporations interested in working with you?**

Being certified as a women-owned business through WBENC gives me access and guidance on how to do business with large corporations. I also wanted to form relationships and learn from other women-owned businesses.
